RIDGID Tapping Tools

Designed for branching pressurized water, lightweight, great for tight quarters & awkward locations. Coupon retaining bits give the operator confidence that the coupon won't be dropped in the pipe, preventing medium contamination or possible damage of downstream equipment. Independent feed & rotation give the operator total control for longer cutter life. Taps steel, cast iron, ductile iron & plastic pipe.

RIDGID Model RT3422

- Tapping capacity: 3/4 - 2"
- Versatility; capable of tapping mains of:
  water up to 500 psig,
  steam & gas up to 150 psi
- Heavy duty design;
  built-in bleed valve
- Complete set includes: tool, shaft extensions, coupon-retaining pilot bits, (2) spud wrenches, valve adapters, heavy-duty hole saw arbors & ratchet wrench in a steel tool box
- Corrosion-resistant design for dependable operation with minimum maintenance
